

Legendary Temperature

- In this activity you will expand upon your temperature plots to add a legend.

Instructions

- Modify the New Jersey temperature line charts from earlier so that they match the image provided.

model image

- Once the plot has been created, look through the [Matplotlib documentation \(https://matplotlib.org/2.0.2/index.html\)](https://matplotlib.org/2.0.2/index.html) to see what additional formatting could be added to the chart.
